

Sector Resource Centre

ICDS sector meeting provides an opportunity for the AWWs to collectively discuss on progress of their respective AWCs/ villages with the Supervisors once in every month. The sector meeting records the project progress and develops plan for the forthcoming month for respective villages of the AWWs. Since a group of AWWs meet in a common forum, the sector meeting provides an opportunity for cross learning on various themes of nutrition and health. However in present circumstances the sector meeting ends with information collection thus moving away from the purpose of cross learning and empowering the frontline workers with knowledge and skill.

Therefore there is a need of developing sector resource centre endowed with information and education materials on health and nutrition which can act as the platform for sharing of knowledge and skills and provide requisite support to the frontline workers in discharge of their duties and responsibilities. The resource centre will provide continuous learning opportunity for the AWWs, AWHs and the Supervisors.

Setting up of the Sector Resource Centre:

50% of Sectors in each of the ICDS projects in districts shall be converted into Sector Resource Centres. The resource centres shall be established in Rajiv Gandhi Seva Kendras at the GP level. Districts shall allocate space for the Sector Resource Centre which should be able to accommodate 30-35 persons.

Functions of the Sector Resource Centre:

The sector resource centre shall perform the following functions:

- Establish SRC as an office of Lady Supervisors for monitoring program progress.
- Make information on health and nutrition available and accessible to the AWW & AWH
- Facilitate Early Childhood Care and Education activities through audio visual aids and learning by doing approach
- Demonstrate best practices related to different components of ICDS programme
- Undertake capacity development workshops for the AWW, AWH
- Facilitate the use of information at the AWC level
- Document the best practices in the sector
- Facilitate Convergence for improved service delivery in the Villages
- Coordinate innovations in the field of nutrition.
- Conduct monthly meetings with the AWWs for reviewing activities of ICDS and Mamata.
